

# ARCA ZYGOMATICA

---

**Dr Andreas Nikolis**

**Senior Medical Director at Victoria Park Medispa since 2007. He has also authored over 70 articles on a number of topics, including plastic surgery and dermatology.**

Dr. Nikolis graduated from Queen's University's School of Medicine in 1996, after which he went on to specialize in general surgery, plastic surgery and head and neck surgery. He also earned a master's degree in experimental surgery..

Dr. Nikolis has been the Senior Medical Director at Victoria Park Medispa since 2007.

He has applied his knowledge of anatomy and the aging process to better assist his clients.

He offers his patients a professional and made-to-measure approach to ensure a natural and relaxed result. His knowledge of and appreciation for aesthetics have led him to become a lead researcher for a number of aesthetics practices.

His knowledge and appreciation for aesthetics led him to become a principal researcher for several aesthetic companies.

He has also authored over 70 articles on a number of topics, including plastic surgery and dermatology. He has presented more than 200 projects at various regional, national and international conferences. Dr. Nikolis is also a leading-edge trainer in aesthetic injectables, in Montreal and other cities around the world.

He is currently principal researcher for several clinical studies, which aim to evaluate new technologies and methods of their application.
